### CONGRESS LANGUAGE (update)

The principal language of the congress will be English.

Simultaneous interpretation facilities will be provided at the plenary sessions in **German** and **Russian**. The choice of languages has been arrived at after due consideration of the responses to language requirements provided by the delegates when they registered.

It is not possible to provide simultaneous translation facilities for the two sets of concurrent workshops due to the nature of these sessions. However it is hoped that some delegates who attend the workshops and who may have certain personal language skills may be able to provide a certain amount of informal translation to their colleagues seated nearby them.

## ABOUT BASEL

### Social and Cultural activities in Basel

In this issue we are featuring some aspects of the social and cultural side of Basel, which hopefully may be of interest to those Congress delegates who plan to stay for a few extra days in Basel.

#### *Guided walking tour of the city – book your place NOW*

This will be your opportunity to go on a guided walking tour of the city on either Friday, 23<sup>rd</sup> or Sunday, 25<sup>th</sup> September. Travel through time as you explore Basel on foot. In few other cities you will find buildings dating back to the 15<sup>th</sup> century contrasting with and yet complementing the modern works of internationally renowned architects. Basel's Old Town remains as untouched and beautiful as any other in Europe. Pay a visit to the City Hall in the centre of town – a striking red sandstone building with a prominent tower and colourful murals.

Basel Tourismus will book one guided tour on Friday, 23<sup>rd</sup> September from 18:00 until 20:00 and a second guided tour on Sunday, 25<sup>th</sup> September from 18:00 until 20:00.

Delegates to the Congress who are interested in participating in either of these tours can contact Basel Tourismus via E-Mail ([incoming@basel.com](mailto:incoming@basel.com)) indicating their name(s) and date they would like to attend the tour. The minimum attendance is 15 people per tour. With an attendance of 15 people, the price is CHF 25.00 per person. On 9<sup>th</sup> September 2011 Basel Tourismus will decide, based on the numbers booked at that time, if the tours will take place or not. If the tours will take place, Basel Tourismus will contact those who have booked regarding payment (credit card details).

#### *Classical Music*

Classical concerts are given in churches and the Stadtcasino, the central concert hall in Basel. It was built in 1876 and has an excellent sound for all kinds of music. Besides high-class local orchestras and chamber groups, among them the Basel Symphony Orchestra and the Basel Sinfonietta, international orchestras and soloists also regularly perform there. The Musikakademie (College of Music) has an excellent reputation and runs its own concert hall. A large part of the classical music scene is funded by the Allgemeine Musikgesellschaft (AMG), founded in 1876. The Paul Sacher Stiftung in Basel is home to one of the largest collections of autographs, including works by Strawinsky among others.

#### *Jazz, Rock & Pop*

There are several jazz clubs and festivals, featuring all kinds of styles, from Dixie to Swing and avantgarde jazz. The Basel Jazz School is part of the Musikakademie. For lovers of rock and pop music there are several smaller venues in the inner city, several clubs, the former military barracks in Kleinbasel (Kaserne), and the so-called Konzertfabrik Z7 in nearby Pratteln. Large events with 50'000 people are hosted at the St. Jakob Park. The music scene in Basel is lively and broad, with over 300 bands playing everything from Rock to Techno to Hip Hop.

#### *Location of the city*

The canton of Basel-Stadt lies on the Upper Rhine, in the triangle formed by neighbouring France to the west and Germany to the north. Basel is the main city of Switzerland's northwestern region and forms the bridgehead from German-speaking Switzerland to the European Union. Topographically, Basel has the lowest altitude of all Swiss cities north of the Alps. The 'Dreiländereck' (the triangle formed by Switzerland, France, and Germany) is at 244 meters above sea level.

The city covers an area of 37 square kilometres on both sides of the Rhine, embedded in the triangle between the Swiss Jura, Black Forest (Germany), and Vosges mountains (France). As it passes

through Basel, the Rhine bends sharply northward and, becomes much wider as it flows into the Upper Rhine Plain. Basel is a traditional traffic junction. The city lies at the crossroads of the north-south and east-west rail systems; its EuroAirport Basel-Mulhouse-Freiburg provides connections to the European and international airline network.

### **Access to the city**

Basel is easily accessible by road, rail and air. Full details are available by logging onto [www.basel.com/en.cfm/baselinfo/lageanreise](http://www.basel.com/en.cfm/baselinfo/lageanreise)
